## **The Generosity of SRP and Superstition Harley-Davidson**

April 1, 2009

Our wonderful volunteer IT guys have donated of hundreds of hours of time over the last year. Mike Kyzer, Jeff Fantin and David Fantin come to us from SRP and voluntarily manage the Child Crisis Center's entire network: 4 locations housing almost 200 employees. They are some of the Child Crisis Center's most dedicated volunteers. They not only have spent countless hours managing our technological infrastructure but have also secured generous donations of labor and goods from Swain Electric Co. and Communications Supply Co. to help us with our network upgrades. As a nonprofit, CCC would be significantly less efficient without our volunteer IT guys keeping us going in the 21<sup>st</sup> Century.

Mike Kyzer even finds time after caring for our network to organize fundraisers to support us financially as well. With the help of presenting sponsor Superstition Harley-Davidson Harley Owner's Group (H.O.G.), he organized the 2008 Superstition Activities Ride (SOAR) "Ridin' For a Reason!" on Saturday, October 25, 2008. About 200 riders began the day at the Apache Junction dealership, and the five-stop ride ended at the Center's Family Resource Center with a carnival for the kids, activities, food, live music, awards and a visit from an engine from the Mesa Fire Department.

CCC is incredibly grateful to Mike, Jeff and David for their generosity and expertise!
